Dear Parents/Carers

Chicken Pox, Measles and Shingles

One of our pupils is receiving significant medical treatment which puts them at risk of becoming very unwell if they are exposed to measles, chicken pox and shingles.

If they are exposed to any of these illnesses, they will need to be given treatment as soon as possible. If your child is suspected of having chicken pox, measles or shingles you should let us know immediately.

Your child is not at ANY RISK whatsoever from this situation. However, the health and well-being of our pupil who is at risk, does depend on the cooperation of all other West Park families. I have no doubt that you will do everything you can to support us and the child involved.

Kind regards

Scott McGregor
